SHAWN BISSETTA,
Superintendent
JOSEPH L. GUGINO,
Business Administrator

September 26, 2016

Dear Parents/Guardians:

Before it was mandated, the Oxford Academy and Central School District took a pro-active approach and tested our public water supply for lead. The district followed EPA protocol and conducted first draw and 30 second flush samples at each location. Overall we conducted 108 samples. We are pleased to report all of our sampling results were well below the recommended action level of 15 parts per billion (ppb).

If you have any questions please contact Mr. Mark Hodge at 607-843-2025, ext. 1156.

Sincerely,

Shawn Bissetta
Superintendent
